

A \$1 Billion Investment in the Health and Wellness of Chicago's South Side

We listened to hundreds of South Side residents to help reimagine how to deliver care in our neighborhoods – TOGETHER.

We are committed to expanding care for the whole family to help everyone stay well and out of the hospital.

Driven by extensive community input, this plan is one of the largest, community-focused health care investments in the nation.

\$500 Million for community outpatient care

- 85,000 new appointments annually
- 10 new Neighborhood Care sites plus a mobile primary care unit
- An expanded Imani Village outpatient clinic on East 95th Street to add Immediate Care with more doctors, more services, more appointments and shorter wait times

\$300 Million for a new state-of-the-art replacement hospital near the lakefront

- Equipped with a cardiac catheterization lab, enhanced emergency department, leading-edge diagnostic testing and imaging, robotic surgical procedures and the latest technology to connect with specialty physicians quicker and more efficiently
- 52 beds with flexibility to meet growing community needs
- Carbon-neutral building designed to meet LEED Certification standards

\$200 Million for managing chronic disease and addressing social factors

- Free prescriptions and medication delivery for eligible patients
- Food Farmacy with fresh produce
- Expanded access to prenatal and postnatal care

\$25 Million for workforce development

- Hiring 1,000 new teammates in the next three years
- Programming to retain and promote teammates
- Mobile recruitment van
